## INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Article 36 and Rule 70)

Applicants or agent's file reference 0000054806  FOR FURTHER ACTION  See Notification of Transmittal of International Preliminary Examination Report (Form PCT/P)  International application No. PCT/EP 03/14354  International filing date (day/month/year) 16.12.2003  International Patent Classification (IPC) or both national classification and IPC  C07C209/52  Applicant BASF AKTIENGESELLSCHAFT  1. This international preliminary examination report has been prepared by this International Preliminary Examination Authority and is transmitted to the applicant according to Article 36.  2. This REPORT consists of a total of 4 sheets, including this cover sheet.  This report is also accompanied by ANNEXES, i.e. sheets of the description, claims and/or drawings we been amended and are the basis for this report and/or sheets containing rectifications made before this (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).  These annexes consist of a total of sheets.	PEA/416)		
International Patent Classification (IPC) or both national classification and IPC C07C209/52  Applicant BASF AKTIENGESELLSCHAFT  1. This international preliminary examination report has been prepared by this International Preliminary Examin Authority and is transmitted to the applicant according to Article 36.  2. This REPORT consists of a total of 4 sheets, including this cover sheet.  □ This report is also accompanied by ANNEXES, i.e. sheets of the description, claims and/or drawings we been amended and are the basis for this report and/or sheets containing rectifications made before this (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).

#### I. Basis of the report

1. With regard to the **elements** of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	De	scription, Pages			
	1-6	i	( as originally filed		
	Cla	ims, Numbers			
	1-1	5	as originally filed		
2.	Wit lan	ith regard to the language, all the elements marked above were available or furnished to this Authority in nguage in which the international application was filed, unless otherwise indicated under this item.			
	The	ese elements were av	vailable or furnished to this Authority in the following language: , which is:		
		the language of a tr	anslation furnished for the purposes of the international search (under Rule 23.1(b)).		
		the language of pub	lication of the international application (under Rule 48.3(b)).		
		the language of a tr Rule 55.2 and/or 55	anslation furnished for the purposes of international preliminary examination (under .3).		
3.	Wit	Vith regard to any <b>nucleotide and/or amino acid sequence</b> disclosed in the international application, the nternational preliminary examination was carried out on the basis of the sequence listing:			
		contained in the inte	ernational application in written form.		
-		filed together with th	ne international application in computer readable form.		
		furnished subseque	ntly to this Authority in written form.		
		furnished subseque	ntly to this Authority in computer readable form.		
		The statement that in the international a	the subsequently furnished written sequence listing does not go beyond the disclosure application as filed has been furnished.		
		The statement that the listing has been furn	the information recorded in computer readable form is identical to the written sequence iished.		
١.	The	amendments have i	resulted in the cancellation of:		
		the description,	pages:		
		the claims,	Nos.:		
		the drawings,	sheets:		
<b>5.</b>		This report has been been considered to	n established as if (some of) the amendments had not been made, since they have go beyond the disclosure as filed (Rule 70.2(c)).		

(Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this

6. Additional observations, if necessary:

report.)

#### Section V

D1: WO 00 69805 A (PERRIN JANET GILLES ;LEROY PIERRE (FR); ANCEL JEAN ERICK (FR); AVE) 23 November 2000 (2000-11-23)

D2: EP-A-0 878 461 (CLARIANT GMBH) 18 November 1998 (1998-11-18)

The present application is directed to process for the preparation of halogenated anilines from substituted 1-chlorobenzenes which comprises a) reacting halogenated 1chlorobenzene selectively with an imine in the presence of a transition metal catalyst complex and a base to form an N-aryl imine; and b) hydrolysing the N-aryl imine; and c) isolating the substituted halogenated aniline.

D1 represents the closest prior art and differs from the subject matter of the present application insofar that a substituted phenylhydrazine, stemming from the reaction of 1,3,5-trichlorobenzene and hydrazine hydrate, is hydrogenated in the presence of Raney nickel (cf. examples 1-6, claims 1-6).

The technical problem may be regarded as the provision of an improved process for the production of halogenated anilines.

The solution is given in the in claim 1 and concerns the formation of an N-aryl imine and its subsequent hydrolysis to the desired aniline derivative.

However, this kind of reaction protocol appears to be less dangerous compared to the use of hydrazine. The reaction protocol proposed by the present application is also not deducible for the skilled person in the art from D1.

Thus, the subject matter of claims 1-15 fulfills the criteria of Article 33(2) and (3) PCT with respect to the available prior art.
